LEASING INFORMATION FOR LESSORS

Revised as of January 2024

The Mutual Fifty by-laws permit Members to lease their units to a third party, with the right to use the community facilities transferred from the landlord to the tenant (by-laws: Art III, Sec 2). There are restrictions for occupancy and the role of the Golden Rain Foundation (“GRF”) leasing assistant is to insure that there is compliance with the governing rules prior to the issuance of a lease-occupancy permit by a Mutual Fifty Corporate officer. A “unit” is defined as a residential unit in one of the housing mutual corporations. Unit leases may not be shorter than two months.

OWNER IDENTIFICATION CARDS

Resident ID cards will be collected from Owners when they execute Waiver and Consent form giving up their right to use community facilities. Upon surrender of the card, the Owner is given a Non-resident Owner’s Pass that provides the Owner access to the community for the purpose of inspecting the leased premises. This pass does not permit use of, or access to the community facilities.

APPROVAL

Lease Permit Applications to lease Premises are to be submitted to Towers Administrative Office for approval. Please contact the Front Desk to obtain additional information about move-in procedure 949-434-5624

Please allow seven (7) business days from date of submitting of completed, executed documents for obtaining approval. The Owner is responsible for providing a copy of the approved Permit and the unit keys to the Lessee.

Please provide the Towers Administrative Office with the following information necessary to obtain approval:

1. Fully completed documents in the attached packet
2. Check for \$450.00 made payable to **Laguna Woods Mutual No. 50**
3. Owner’s Resident ID card
4. Proof of age/identity (copy of driver's license or passport) for each Lessee

Lessee ID cards will be available no sooner than 7 days prior to the lease start date. A Waiver of Liability form must be executed by Lessor and Lessee if the Lessee requires access to the community prior to the lease start date.

Neither the Mutual, GRF nor PMP are parties to the terms of the lease, and will not be involved in resolving disputes between Lessor and Lessee. All commissions payable to a Realtor and notification to the Realtor upon renewal or extension of a lease are solely the Owner's obligation. Any such assignment or subletting without such consent shall be void and, at the option of Mutual and/or Lessor, shall constitute a breach of the Permit. The interest of Lessee in a Permit shall not be assignable by operation of law without written consent of the Mutual.

Neither Lessor, the Mutual, GRF, nor PMP shall be liable to Lessee for any damage caused by any act or negligence of any other occupant of the same building or by any owner or occupant of adjoining or contiguous property. In the event of any breach of this Permit by Lessee, Mutual shall have the same rights and remedies to enforce this Permit as are available to Lessor hereunder and may be exercised by Mutual without regard to any exercise thereof by Lessor and without liability either to Lessor or Lessee arising out of or relating to the exercise of such rights and remedies by Mutual. Additionally, the Mutual shall have the same rights to dispossess the Lessee or otherwise act for the Lessor as may be necessary or appropriate in the event of any breach of the Permit or the Lessee's failure to vacate following expiration of the Permit term. The Mutual shall also have the right to bring an unlawful detainer action against the Lessee after proper notice has been given as provided in California Civil Code Section 1946 or any successor statute thereto.

14. TIME IS ESSENCE; WAIVER

Time is of the essence under this Permit. The waiver by Lessor, Mutual or either of them, of any breach of any term, covenant or condition of this Permit shall not be deemed to be a waiver of such term, covenant or condition or any subsequent breach of same of any other rent shall not be construed to be a waiver of any breach by Lessee of any term, covenant or condition of this Permit. The remedies given herein to Lessor and to Corporation shall be cumulative and the exercise of any one remedy by Lessor or by the Mutual shall not prohibit exercise of any other remedy available.

15. SUBORDINATION

This Permit is subject and subordinate to the Governing Documents and to any and all covenants, conditions, restrictions, underlying leases, occupancy agreements, mortgages or deeds of trust which may now affect the real property of which the premises form a part, or the underlying leases or occupancy agreements, and to all renewals, modifications, consolidations, replacements and extensions thereof. Mutual is hereby irrevocably appointed and authorized as agent and attorney-in-fact of Lessee to execute all such subordination instruments in the event Lessee fails to execute said instruments within five days after notice from Lessor or Mutual demanding the execution thereof. Said notice may be given in the manner provided herein for giving notice.

Acknowledgement For New Owners and Residents

Overview

The Towers was designed originally and marketed as a residential project for active senior citizens and retirees:

The Towers is not an “Assisted Care” or “Assisted Living Facility.” Accordingly, and in view of certain conditions at The Towers as disclosed below, all prospective purchasers, residents, and/or lessees of units at The Towers must execute this acknowledgement prior to or contemporaneously with the close of escrow, or prior to moving into The Towers.

No provisions were made for extended care of residents (ambulatory or otherwise) since the facility was developed and marketed for ownership by self-sufficient, active, individuals seeking an environment that combines security with refined elegance. There is **no** provision for ongoing medical care on-site.

The Towers was constructed during the period from early 1973 through early 1974. At this time the 1970 Uniform Building Code, with supplements, was the governing code for construction in the County of Orange. Since 1974, the requirements for housing accessibility have broadened incrementally, each time becoming more responsive to the needs of the disabled population. As a result, buildings constructed more recently contain different design features to make them more convenient for those with physical disabilities.

In 1987, the Mutual No. Fifty Board of Directors hired safety engineering firm, McHale/Woods Associates, Inc. to provide a pedestrian circulation study of The Towers. The scope and purpose of the report was to study architectural and operational factors inherent in the design of The Towers, which affect the use of the facility by partially and non-ambulatory residents and their guests.

Because that study concludes that certain hazards are present, particularly for non-ambulatory persons living above the first floor, the members of the Board of Directors feel that the findings of the safety engineering firm should be disclosed to all prospective purchasers and residents.

“Additionally, because existing hazards affect the day-to-day living conditions at the Towers, it is critical that each prospective purchaser, resident, and/or lessee execute this acknowledgement to evidence his/her awareness of the current conditions existing at The Towers.”

Accessibility

1. There is only one accessible parking space on Mutual No. Fifty property.
2. The building entrance has limited accessibility and there are no passenger loading zones.
3. The curb ramps in front of The Towers were designed for emergency vehicles, but do not meet the current State code requirements for new buildings for wheelchair access.
4. Residential entry doors on 66% of The Towers units do not have adequate clear and level space to the strike side of the door for wheelchair maneuvering to meet current State code access requirements for new buildings (A, B, and C models)
5. A majority of residential bathroom doors do not have adequate clear and level space to the strike side of the door to meet current State code access requirements for new buildings (A, B, C models).
6. According to the current code for new buildings, residential kitchen units do not have the proper minimum height to allow wheelchair users to roll up to the counter.
7. Residential bathrooms do not satisfy the current handicap code space requirements for residential bathrooms in new buildings. None of the existing bathrooms have sufficient space available for a wheelchair user to maneuver.

Fire and Emergency

1. The elevators open at the center rather than the side. A center-loading car does not allow a typical transport gurney cart to be rolled into the car in a flat position. This requires that the person being transported be placed in a sitting position.
2. In the event of a fire or earthquake, the elevators are programmed to return to the ground floor and remain there, for use by emergency personnel only. All persons on upper floors (2 through 14) would find the elevators non-responsive to calls. In this instance, their only other evacuation route would be the emergency stairs located at the end of each corridor. Where possible, the fire evacuation crew would take over operation of the elevator and begin evacuating residents.

3. The stairs are a barrier for non-ambulatory wheelchair users and persons using walkers. During emergency conditions a person using a wheelchair or walker may create a hazard both to him or her and to others attempting to evacuate by the stairwells.
4. The Towers has a fire sprinkler system in the common areas and in the kitchen. There are three fire extinguishers and three emergency pull alarms on every floor. Each unit has a battery operated smoke detector and one sprinkler head at the entrance.
5. **Non-ambulatory individuals residing above the first floor might be incapable of evacuating themselves from the building in the event of a fire or earthquake.** The only possible way these individuals would be able to exit the building would be through “hands on” evacuation (i.e., he or she must be carried from the building.) Whether these non-ambulatory individuals could be safely evacuated in an emergency situation is totally dependent on the direness of the situation, the time available to access the resident, the number of personnel available to assist in the rescue, the accessibility of the resident and the distance (number of floors) the resident would have to be carried. Certainly these factors will vary with the intensity of each emergency. **When one considers safety factors, the McHale/Woods safety report concludes, “It cannot be recommended that a non-ambulatory resident reside above the first floor of The Towers.”**
6. In the Towers Pedestrian Circulation Evaluation report prepared by the Safety Engineering firm of McHale/Woods Associates, Inc., reference is made to non-ambulatory persons. The definition of a non-ambulatory person is taken from the California State Building Code, Section 310.2. It is as follows:
 - a. Non-ambulatory Persons (B) (SFM) are persons unable to leave a building unassisted under emergency conditions. It includes, but is not limited to, persons who depend upon mechanical aids such as crutches, walkers, wheelchairs, and any person who is unable to physically and mentally respond to a sensory signal approved by the State Fire Marshall or an oral instruction relating to fire danger.
 - b. The determination of ambulatory or non-ambulatory status of persons with developmental disabilities shall be made by the Director of Social Services on his or her designated representative, in consultation with the director of Developmental Services or his or her designated representative. The determination of ambulatory or non-ambulatory status of all other disabled persons placed after January 1, 1984, who are not developmentally disabled, shall be made by the Director of Social Services or his or her designated representative.

Conclusion

The Mutual No. Fifty Board of Directors contracted for the services of the safety engineering firm of McHale/Woods Associates to conduct a pedestrian circulation study of The Towers. That report describes several hazards and impediments to use of the facility by people who are physically disabled or non-ambulatory. **“These hazards underscore the importance of communicating clearly to prospective purchasers, residents, and lessees that Mutual No. Fifty was not established as, and is not equipped or staffed to function as, an assisted care or assisted living facility.”** The Board of Directors feels this information should be brought to the attention of all prospective residents.

Mutual No. Fifty will provide a copy of the McHale/Woods report upon request.

I hereby acknowledge that I have received, read, and understand this acknowledgement. Also, I acknowledge that I have inspected the unit I intend to purchase (or in which I intend to reside), the path to the stairwells that I would have to use in an emergency to leave the building, and the common areas of The Towers.

NOTICE

To: MEMBERS AND PROSPECTIVE PURCHASERS OF DWELLING UNITS AT LAGUNA WOODS VILLAGE, LAGUNA WOODS

From: Michael Turner, GENERAL MANAGER

DISCLOSURE NOTICE: LAGUNA WOODS VILLAGE BUILDINGS CONSTRUCTED WITH ASBESTOS-CONTAINING CONSTRUCTION MATERIALS

Health & Safety Code 25915.2 and 25915.5 require the Mutual to provide annual notice about the existence of asbestos-containing materials ("ACM") in non-residential "public" buildings in the Mutual to all employees and contractors performing work within said buildings, and to all Members of the Mutual.

In addition, the Mutual is required to disclose to new owners, within 15 days of acquiring title to a Manor, the existence of asbestos-containing material in non-residential "public" buildings within the Mutual. Property Management Professionals, Inc., as Employer, and as Agent, for the Association which own or manage the buildings at Laguna Woods Village, Laguna Woods for their Members, hereby notifies all its Employees, Contractors and all Mutual Members and Transferees, that some buildings within Laguna Woods Village have been surveyed and found to contain asbestos. The analytical method used to determine asbestos content was polarized light microscopy/dispersion staining. Since the community has an active Asbestos Operations and Maintenance program, testing is ongoing. Because of the high cost to conduct a complete asbestos survey and analysis of all buildings, surveys are conducted only upon repair, remodel, addition to or removal of a building or part of a building suspected to contain asbestos materials, as required by Labor Codes. The Certificates of Analysis for any testing received to date are available to employees, contractors, owners and tenants and transferees for review and photocopying from the Laguna Woods Village Human Resources/Safety Office, 24351 El Toro Road, Laguna Woods, CA., between 9:00a.m. and 5:00 p.m., Monday through Friday.

The following buildings in Laguna Woods Village, Laguna Woods were constructed prior to 1979 and thus may contain asbestos in one or more construction materials: All community facilities buildings (with the exception of Clubhouse Seven, the Mini-Gym at Clubhouse One, the Broadband Services Bldg., the Laguna Woods Village Community Center Bldg., the Vehicle Maintenance Bldg., and a portion of the Warehouse -all constructed after 1979), including Clubhouses and outbuildings, Library, Maintenance Warehouse Bldg., Stables, Gatehouses, Garden Center buildings, all detached laundry buildings, and residential buildings Nos. 1 through 5543 inclusive.

At the time most of the buildings in Laguna Woods Village were constructed, asbestos containing materials met local codes as well as state and federal regulations and were extensively used in *many* building products including but not limited to: ceiling tile, floor

tile/linoleum and mastic, textured wall surfaces, sprayed acoustical ceilings, fire doors, structural fireproofing, pipe/boiler insulation, attic insulation, and heating duct material/insulation.

According to the National Cancer Institute and the Environmental Protection Agency, any asbestos in these materials does not present a threat to health so long as the asbestos is not disturbed and does not become airborne. However, because breathing asbestos has been known in some instances to cause cancer and other forms of lung disease, sanding, scraping, drilling, sawing, crushing, tearing/breaking up, or otherwise disturbing asbestos-containing materials presents a potential health risk. Therefore, you are directed not to perform such tasks in areas with ACM present or suspected unless the area/materials have been tested and found not to contain asbestos or if specifically assigned or contracted to do such work and it is in accordance with all federal, state, and local laws as well as internal guidelines called for in the Asbestos Operations and Maintenance plan and other company safety and environmental policies and procedures.

PMP employees whose work orders require them to construct, repair, maintain or otherwise disturb construction materials that may contain asbestos are hereby directed to follow the current regulations and policies noted above and to wear the required protective equipment, prior to performing such work. Questions concerning instructions and equipment should be directed to the Building Engineer at 434-5613.

It is illegal to place asbestos materials or debris in Laguna Woods Village trash dumpsters. Such materials must be disposed of separately in accordance with State and County regulations to avoid fines. Contact the Building Engineer at 434-5613 for details.

If you become aware of any asbestos-containing material becoming damaged or otherwise disturbed, please contact the Building Engineer at 434-5613.
