

Good afternoon, Towers Family,  
April 19th, 2024

**ADMINISTRATION:**

Well, it appears that we have turned the corner with all this rain. I would like to report that the waterproofing project of the Zen Patio area is a success, as the electrical room along with the boiler room was not flooded one time. Maintenance is working hard to service the air conditioning system getting ready for the summer months. Great job team! Keep up the hard work! I would also like to report that Housekeeping has been working overtime (while being short staffed) to keep your units clean. Please note that this department is working tirelessly to keep up the schedule I would like to give them an extra Thank You for all their hard work. Don't forget about the Administration and Operations staff working tirelessly for the residents here at The Towers as well.

Thank you, Michael Turner, General Manager and Marshall Crawford, Assistant General Manager

## **MAINTENANCE:**

This week maintenance and contracted vendor Forever Solar completed the Electrical panel replacement project in Tower 2. All electrical panels in-unit have now been replaced for both towers. We also had the City of Laguna Woods inspector checking all panels. Tower 1 panel inspection is complete and has passed inspection. We are now in Tower 2 performing the inspection as well. Tower 2 1<sup>st</sup> floor through 5<sup>th</sup> floor have been completed and have passed inspection. We will continue the Tower 2 inspections on Monday, April 29. Residents will receive their notice as a reminder. Thank you, Freddy, and Maintenance Team
